Release Information

Release Version: 17.09.2

Date of Release: October 12, 2017

Introduction

This document describes the features and functionality of the BIGCenter 17.09.2 release. Enhancements have been delivered for Leases, Report Center, and Work Requests.

Ideas for improving BIGCenter

We invite you to submit enhancement requests on the BIGCenter Ideas page, visible to both internal Accruent employees and Support Contacts for other BIGCenter customers. You can now vote for or against these ideas, add or respond to comments, and view the status of all ideas.

This direct feedback allows Accruent to gain visibility into what is meaningful to customers. Product Management actively monitors the Ideas board, adds comments, and updates the status of ideas as needed.

Please contact BIGCenter Support for any questions about Ideas.

Issues Resolved with this Release

Component	Summary
Leases	• After entering an initial Accounting Entry record, **Leases** was not generating a default start date for subsequent Accounting Entry records. • **Leases** now generates a default start date for all Accounting Entry records.
Leases	• Custom configuration settings in the **Options** and **Documents** detail sections were not persisting as users navigated between leases. • These settings should now persist until the user makes another change.
Leases	• Straight-line remeasurements were impacting the entire lease accounting schedule rather than from the date it was completed. • Straight-line remeasurements should now be effective from the date they are completed.
Leases	• Users reported that they were unable to edit the **Activity Description** field but they were able to edit **Comments**. • The **Activity Description** field is now editable and **Comments** are no longer editable.

Report Center	• The **Project Summary Ad-Hoc Report** was including project templates in its results. • This report no longer includes project templates in its results.
Work Requests	• Legacy Codes for buildings were only displaying when the **Summary** detail section was in **Edit** mode. • Legacy Codes now display in the **Summary** detail section while in **View** mode.
