Release Information

Release Version: 17.10.1

Date of Release: October 26, 2017

Introduction

This document describes the features and functionality of the BIGCenter 17.10.1 release. Enhancements have been delivered for Leases, Programs, and Work Requests.

Ideas for improving BIGCenter

We invite you to submit enhancement requests on [the BIGCenter Ideas page](#), visible to both internal Accruent employees and Support Contacts for other BIGCenter customers. You can now vote for or against these ideas, add or respond to comments, and view the status of all ideas.

This direct feedback allows Accruent to gain visibility into what is meaningful to customers. Product Management actively monitors the Ideas board, adds comments, and updates the status of ideas as needed.

Please contact BIGCenter Support for any questions about Ideas.

Features & Enhancements

Leases Journal Entries Detail Section Added to Print Page

The **Journal Entries** detail section from the **Manage Accounting Entry** dialog in the **Accounting Entries** detail section now appears on the **Print** page.

Issues Resolved with this Release

Component	Summary
Leases	<ul style="list-style-type: none"> Users reported that changing a default cost allocation on an expense changes all cost allocations to zero. Now, changes to default cost allocations save as expected and maintain the values that are not being edited.
Programs	<ul style="list-style-type: none"> Values were not appearing in the Program Type drop-down menu in the Summary detail section while in Edit mode. Programs now displays values in the Program Type drop-down menu while in Edit mode.

Work Requests	<ul style="list-style-type: none">• Users reported that when editing a work request, they were unable to edit the Location/Room field. Additionally, any data the user entered in the room field when they originally created the request had not been saved by the system.• The Work Requests workspace now saves room data and allows users to change room data in Edit mode.
Work Requests	<ul style="list-style-type: none">• Archived equipment no longer appears as available to add to a work request.
