Release Information

Release Version: 18.09.1

Date of Release: September 27, 2018

Introduction

This document describes the features and functionality of the BIGCenter 18.09.1 release. Enhancements have been delivered the **Leases** workspace, **Portfolio Center**, and **Report Center**.

Ideas for improving BIGCenter

We invite you to submit enhancement requests on the BIGCenter Ideas page, visible to both internal Accruent employees and Support Contacts for other BIGCenter customers. You can now vote for or against these ideas, add or respond to comments, and view the status of all ideas.

This direct feedback allows Accruent to gain visibility into what is meaningful to customers. Product Management actively monitors the Ideas board, adds comments, and updates the status of ideas as needed.

Please contact BIGCenter Support for any questions about Ideas.

Summary of Issues Fixed and Additional Enhancements

Component	Summary
Leases	**Issue:** Previously, fields in the **Lease Dates** section of the **Create a Lease** page were marked as required when the **Lease Type** was set to **Owned**. **Resolution:** If the **Lease Type** is set to **Owned**, the fields in the **Lease Dates** section of the **Create a Lease** page are optional, not required.
Leases	**Issue:** When editing allocations in the **Leases** workspace, users found that if they clicked in the area of the **Start** or **End Date** fields that is horizontally in-line with the name of the field, the **Filter Panel** opened, became stuck, and the **Date Picker** from the **Start** or **End Date** field broke off the modal window. This only occurred if the user had filtered the collection or opened the filter panel prior to clicking on the **Start** or **End Date** field labels. **Resolution:** This issue no longer occurs when editing allocations.
Leases	**Issue:** The **Tenant Share** field was not populating on the **Print Abstract**. **Resolution:** The **Tenant Share** field populates on the **Print Abstract**.
Leases	**Issue:** Some users found that they could not delete rent-related cost items from the **Income & Expenses** detail section. This issue only occurred for costs with single cost allocations. **Resolution:** Users can delete rent-related cost items from the **Income & Expenses** detail section as expected.
Leases	**Issue:** The **Toggle View** action in the **Income & Expenses** detail section would not allow users to change the view. **Resolution:** The **Toggle View** action in **Income & Expenses** detail section functions as expected.
Leases	**Issue:** Lease allocation percentages were not rounding correctly due to the allocation percentage being cut off, causing the system not to allow reconciliation. **Resolution:** We have increased the amount of decimal values displayed for lease allocations to more accurately communicate percentage and allocation discrepancies.

Component	Summary
Portfolio Center	**Issue:** The **Select Multiple** function in the **Hierarchy** section of the **Legacy** > **Portfolio Center** > **Lease** > **Reports** page returned a server error. **Resolution:** This function no longer returns a server error.
Report Center	A new **Lease Type** filter has been added to **Report Center**. This filter allows users to create distinct reports for real estate and equipment leases.
