Release information

Release Version: 19.03.1

Date of Release: March 28, 2019

Introduction

This document describes the features and functionality of the BIGCenter 19.03.1 release. Enhancements and fixes have been delivered for the **Leases** workspace and **Report Center**.

Ideas for improving BIGCenter

We invite you to submit enhancement requests on the BIGCenter Ideas page, visible to both internal Accruent employees and Support Contacts for other BIGCenter customers. You can now vote for or against these ideas, add or respond to comments, and view the status of all ideas.

This direct feedback allows Accruent to gain visibility into what is meaningful to customers. Product Management actively monitors the Ideas board, adds comments, and updates the status of ideas as needed.

Please contact BIGCenter Support for any questions about Ideas.

Summary of issues fixed and additional enhancements

Component	Summary
Leases	**Issue:** When a user re-measured an accounting entry, the change in the asset balance was not reflected in the journal entry. **Resolution:** Journal entries display the updated asset balance when an accounting entry is re-measured.
Leases	**Issue:** Users found that the cost center would disappear from their accounting entry in the following scenario: 1. The user approved the accounting entry with a cost center. 2. The user made changes to the lease options or costs. 3. The system then displayed the re-measurement recommendation notice. 4. The user dismissed the re-measurement recommendation notice. 5. The user found that the cost center disappeared from the accounting entry. **Resolution:** The cost center no longer disappears in this scenario.
Report Center	A new **Quarterly Quantitative Disclosure** report has been added to **Report Center**. This report functions similarly to the **Quantitative Disclosure** report, but it allows the user to select a quarter prior to being run.
