Release information

Release Version: 19.05.1

Date of Release: May 23, 2019

Introduction

This document describes the features and functionality of the BIGCenter 19.05.1 release. Enhancements and fixes have been delivered for the **Building Manager, Project Center, Leases**, and **Transactions** workspaces.

Ideas for improving BIGCenter

We invite you to submit enhancement requests on the BIGCenter Ideas page, visible to both internal Accruent employees and Support Contacts for other BIGCenter customers. You can now vote for or against these ideas, add or respond to comments, and view the status of all ideas.

This direct feedback allows Accruent to gain visibility into what is meaningful to customers. Product Management actively monitors the Ideas board, adds comments, and updates the status of ideas as needed.

Please contact BIGCenter Support for any questions about Ideas.

Change in BIGCenter Release Schedule

To keep the BIGCenter releases in sync with other products in the company, the BIGCenter release schedule will change starting with the 19.05.2 release. The following table shows you the original release dates and their updated release dates.

19.05.2	06/06/2019	**06/13/2019**	**3-week sprint**
~~19.05.3~~	~~06/20/2019~~	**Cancelled**	**Removed due to 19.05.2 being a 3-week sprint**
19.06.1	07/18/2019	**06/27/2019**	
19.06.2	07/18/2019	**07/11/2019**	
19.07.1	08/01/2019	**07/25/2019**	
19.07.2	08/15/2019	**08/08/2019**	
19.07.3	08/29/2019	**08/22/2019**	
19.08.1	09/12/2019	**09/05/2019**	
19.08.2	09/26/2019	**09/19/2019**	
19.09.1	10/10/2019	**10/03/2019**	
19.09.2	10/24/2019	**10/17/2019**	
19.10.1	11/07/2019	**10/31/2019**	
19.10.2	12/12/2019	**11/14/2019**	
19.11.1	12/12/2019	**12/05/2019**	**Adjusted due to Thanksgiving holiday**

Release Number	Original Release Date	Updated Release Date	Comments
19.11.2	01/02/2020	**12/12/2019**	
19.12.1	01/16/2020	**01/02/2020**	**Adjusted due to Christmas holiday**
19.12.2	01/30/2020	**01/09/2020**	

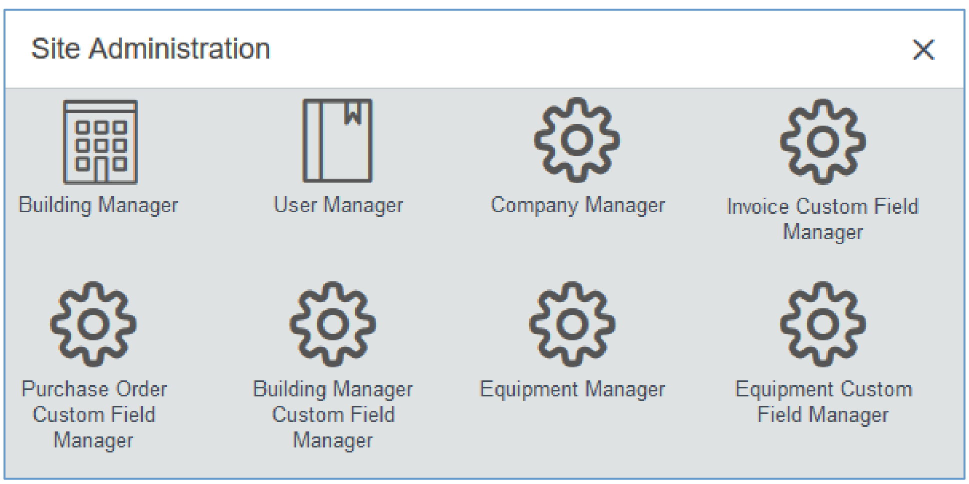
If you have any questions, please contact Support.

Property detail section added to Building Manager workspace

A new detail section called **Property** was added to the **Building Manager** workspace. This new feature enables you to edit the property information for a building.

To edit property information for a building, follow these steps:

1. Click the **Site Administration** link in the menu.
   The **Site Administration** modal window opens.



2. Click the **Building Manager** button in the **Site Administration** modal window.
   The **Building Manager** workspace opens.
3. Select the building record whose property information you want to edit.
4. Select the **Property** detail section from the **Detail Section** menu.
5. Click the **Edit** button in the toolbar on the right side of the **Details** pane.
   The **Edit Property** modal window opens.
6. Make your changes.

7. Click the **Save** button.
   Your changes are now saved.

Transaction Reports page added to the Legacy application

A new **Transaction Reports** page has been added to legacy **Project Center**. This page enables you to report on the transaction data via the legacy menu.

To generate a transactions report, follow these steps:

1. Navigate to **Legacy Menu** > **Project Tracking** > **Reports** > **Transaction Reports**.
   The **Transaction Reports** page opens.
2. Select the type of report you want to view from the **Reports** drop-down menu.
   - **Transaction Summary Report** – Report having basic details of a transaction like **Transaction Type**, **Transaction Sub-Type**, and **Gantt dates**.
   - **Transaction Comments Report** – **Transaction Summary Report** with project comments.
   - **Transaction Dates Report – Transaction Summary Report** with the dates from each lease associated with the transaction.

   Additional search fields **Person** and **Version** appear.
3. Select the person from the **Person** drop down menu.
4. Select the version of the report from the **Version** drop down menu.
5. (optional) Enter any additional search criteria in the provided fields.
   - **Transaction Type** – select the transaction type from this drop-down menu.
   - **Transaction Sub-Type** – select the transaction sub-type from this drop-down menu.
   - **Transaction Status** – select the transaction status from this drop-down menu.
   - **Transaction Sub Status** – select the transaction sub-status from this drop-down menu.
   - **Country** – self-explanatory
   - **State/Province** – self-explanatory
   - **City** – self-explanatory
   - **Transaction Number** – self-explanatory
   - **Transaction Number Alias** – enter the transaction number alias.
   - **Transaction Name** – self-explanatory
   - **Transaction ID** – self-explanatory
   - **Region** – self-explanatory
   - **Sub-region** – self-explanatory
   - **Property** – select the property on which this transaction took place from this drop-down menu.
   - **Building** – select the building in which this transaction took place from this drop-down menu.
   - **Transaction Manager** – select the transaction manager from this drop-down menu.

- **Space Use** - select how this space is or will be used from the drop-down menu - some examples include administration, commercial, data center, and manufacturing.
- **Year of Transaction** - self-explanatory
- **File Client Id –** enter the file client Id.
- **Planned Start Date (After Date)** – self-explanatory
- **Planned Start Date (Before Date)** – self-explanatory
- **Planned Finish Date (After Date)** – self-explanatory
- **Planned Finish Date (Before Date)** – self-explanatory
- **Scheduled Start Date (After Date)** – self-explanatory
- **Scheduled Start Date (Before Date)** – self-explanatory
- **Scheduled Finish Date (After Date)** – self-explanatory
- **Scheduled Finish Date (Before Date)** – self-explanatory
- **Current Finish (After Date)** – self-explanatory
- **Current Finish (Before Date)** – self-explanatory
- **Rentable Area (Greater Than)** – self-explanatory
- **Rentable Area (Less Than)** – self-explanatory
- **Rentable Area (Unit)** – select the unit used for the rentable area from this drop-down menu.

6. Click the **Submit Search**  button.
   The report is generated.

Summary of issues fixed and additional enhancements

Component	Summary
Leases	**Issue**: Previously, some fields in the **Leases** module were required when creating an **Owned** lease record, even though they were not necessary. **Resolution**: This issue has been resolved and the below fields are no longer required for creating an **Owned** lease record. • Current Commencement Date • Current Expiration Date • Original Commencement Date • Original Expiration Date **Note:** These fields are still required for creating a Leased lease record.
Leases	**Issue**: Previously, if the **Asset ID** of an approved or locked lease accounting entry was updated, any new costs would get included in the accounting schedule. **Resolution**: This issue has been resolved. Updating the **Asset ID** of an approved or locked lease accounting entry no longer pulls in any new costs that may have been added. If the **Asset ID** of a lease accounting entry that is not approved or locked is updated, any new costs will get included in the accounting schedule as expected.
Leases	**Issue**: Previously, the application was treating a blank or null **Asset ID** value as a unique identifier. Additionally, you were unable to create multiple accounting entries with a blank **Asset ID** value on the same lease. **Resolution**: The system no longer treats a blank or null **Asset ID** as unique, and you can have multiple accounting entries with a blank **Asset ID** value on the same lease.

Component	Summary
Transactions	New filters were added to the **Filter Panel** in the **Transactions** workspace. The following new filters were added: • Transaction Number • Transaction Number Alias • Scheduled Start Date • Scheduled End Date • Currency • Year of Transaction • Created By • Building • Lease ID • Lock Reason • Actual Start Date • Actual Finish Date • Transaction Sub-Type
Transactions	**Issue:** Previously, you were unable to include comments and critical dates associated with transaction records in legacy reports. **Resolution**: This issue has been resolved. You can now include comments and critical dates in transaction reporting.
